<sup>1</sup> Percentage increases are computed on basis of change in population since preceding census date, and period covered therefore is not always exactly 10 years. Adjustments for differences in census dates must be made if strictly comparable figures are desired for each decade.

<sup>2</sup> Figures given for various census years represent the area of all land within the present boundaries of the United States and conterminous United States which was under the jurisdiction of the United States on the date in question, including in some cases considerable areas of land not then organized or settled and not covered by the census. In 1870, for example, Alaska was not covered by the census. Area figures for conterminous United States for the years 1790 through 1920 have been revised since publication of 1950 reports to bring them in agreement with remeasurements made in 1940.

<sup>3</sup> Revised figure of 39,818,449 for the 1870 population includes adjustments for underenumeration in the Southern States. Unadjusted data are used in this and subsequent tables because revised figures for States, urban-rural residence, etc., are not available. On the basis of the revised figure, the population increased by 8,375,128, or 26.6 percent, between 1860 and 1870, and by 10,370,760, or 26.1 percent, between 1870 and 1880.

<sup>4</sup> On the basis of the revised figure for the Southern States, the population increased by 8,375,128, or 26.6 percent, between 1860 and 1870, and by 10,337,334, or 26.0 percent, between 1870 and 1880.

<sup>1</sup> Revised since publication of 1950 reports.

<sup>2</sup> Includes persons (6,100 in 1840 and 5,318 in 1830) on public ships in the service of the United States, not credited to any region, division, or State.

<sup>3</sup> In 1860 there were 4,837 persons enumerated in Dakota Territory, all of whom were living in rural territory.

<sup>4</sup> The population reported in 1900 as urban is the population of Honolulu, and in 1910, 1920, and 1930, is the population of Hilo and Honolulu. Other places of this size were not reported separately in censuses prior to 1920.
